IELTS Academic Reading: Artificial Intelligence in Healthcare

Passage 1: Diagnostic Automation

Over the past decade, machine learning algorithms have demonstrated diagnostic accuracy comparable to spec
However, clinical integration remains hindered by the 'black box' problem, where clinicians cannot interpret the e

Question 1: Convolutional neural networks have exceeded specialist accuracy in all diagnostic fields.

Answer: FALSE

Explanation: The passage states accuracy is 'comparable to specialist physicians in radiology and dermatology',

Question 2: Clinicians readily adopt AI models due to transparent internal reasoning.

Answer: FALSE

Explanation: The passage notes clinical integration is hindered by the 'black box' problem, where clinicians cann
